### EXPERTISE

- **Web Development:** React.js, Node.js, Express.js, HTML/CSS
- **UI Libraries:** Bootstrap, TailwindCSS, Daisy UI
- **RestAPI:** Node.js, Express.js
- **Data Analysis: Python**
- **Version Control:** Git, GitHub
- **Project Management:** Planning, organizing, and executing projects
- **Database Management:** MySQL, MongoDB
- **Artificial Intelligence:** Understanding of AI concepts and techniques
- **Testing and Debugging:** Jest, bug identification, and resolution
- **Productivity Tools:** MS PowerPoint, MS Word, MS Excel
- **Soft Skills:** Critical Thinking, Problem Solving, Communication, Teamwork, Leadership, Time Management, Adaptability, Analytical Skills, Attention to Detail, Strong Work Ethic

### PROJECTS:

- **Food Delivery App:** MERN Stack
- **Quiz App:** MERN Stack
- **POS App:** ReactJS
- **Note-Taking App:** ReactJS
- **Portfolio:** HTML/Tailwindcss
- **Weather App:** ReactJS
- **Landing Page:** ReactJS
- **Rock-Paper-Scissor:** HTML/CSS
- **Hangman:** ReactJS
- **Random Quote Gen:** ReactJS
- **Currency Converter:** ReactJS
- **Fitness Quiz:** ReactJS

### SUMMARY

As a web developer skilled in JavaScript, React.js, Node.js, and HTML/CSS. I deliver dynamic solutions. I strive to remain at the forefront of technological advancements to deliver cutting-edge solutions. Additionally, adept in Microsoft tools like MS PowerPoint, MS Word, and MS Excel.

### EXPERIENCE

#### Data Science and Business Analytics

The Sparks Foundation · Internship

June 2023

- Gained practical experience in data analysis, statistics, and business analytics.
- Enhanced skills in data cleaning, visualization, and statistical analysis.

### EDUCATION

#### Bachelor's in Computer Science

Sarhad University of Science and Information Technology, Peshawar

Courses:

2018-2023

- Comprehensive education in Database Programming and Distributed Databases.
- Proficient in Java Internet Programming and Mobile Application Development for Android.
- Solid understanding of Artificial Intelligence concepts.
- Experienced in Project Management and Software Engineering methodologies.
- Skilled in Object Oriented Programming and Web Programming, with exposure to Visual/.Net Programming.

Project:

- Pharmacy Management System in Oracle Database

#### FSC Pre-Engineering

Peshawar Model Degree College, Mardan

2016-2018

#### Matriculation

Peshawar Model School, Mardan

2014-2016

### PROFESSIONAL CERTIFICATIONS

#### MERN Stack Developer

Aug 2023

Nexusberry Institute

- Proficiency in seamless client-server integration using React.js and Node.js/Express
- Efficient data management with MongoDB, including schema design and CRUD operations
- Skilled in Git for collaborative coding and project version control

#### Meta Front-End Developer

June 2023

Coursera

Courses:

- Introduction to Front-End Development
- JavaScript Programming
- Version Control
- Comprehensive Study of HTML and CSS
- Fundamentals of React
- Advanced React Techniques
- Fundamentals of UX/UI Design
